

Instant meeting power without leaving the office.

Reduce travel time and expense, increase client receptivity.

Web Conference Tool

iShare your computer screen with your clients at the click of a mouse. Think of the savings as you present to as many as 100 participants at a time from your office or home!

The iBoomerang Web Conference Tool lets you make presentations more effectively than if you were sitting side-by-side sharing a monitor. Designed for easy client access, you maintain control of the meeting. Use our telephone bridge to phone conference while simultaneously demoing software or reviewing documents and spreadsheets.

Simple, fast and easy, it works on any computer and any internet connection or modem for one low monthly fee.
